TO NEW TEETH FOR DODGE, \$40

WON'T PAY-THINKS JEROME TOO LAVISH.

Bowery Teeth Only \$20-On Behalf of the District Attorney It Is Represented That Without Good Teeth a Witness May Die and Can't Tatk if He L ve:

Is \$40 too much to pay for a set of false. teeth for Charles F. Dodge, one of the principal witnesses for the prosecution of Messrs. Hummel, Steinhardt and others in the cases growing out of the investigation of the Dodge-Morse marriage and divorce tangle?

That is a question that is disturbing District Attorney Jerome and Comptroller Grout. Mr. Jerome has paid for the teeth and a dentist has fitted them in the mouth of Dodge. Comptroller Grout refuses to pay the bill. It is probable that a commission of experts will be appointed to determine whether \$40 was extravagant. Comptroller Grout thinks that Mr. Jerome should not have paid over \$20.

When Dodge was brought back from Texas, after fighting through the courts for a year, he was a physical wreck. Since then he has been kept in an uptown boarding house under the watchful care of representatives of Mr. Jerome. By degrees his health improved, but he began to have other troubles. One by one his teeth dropped out. At first this caused no excitement. In a few weeks, however, only two of Dodge's front teeth were left. Then one morning when Dodge came down to breakfast he couldn't talk. He mumbled something the detectives could not understand. Since he got his false teeth Dodge has explained that he was trying to tell them that he had lost the last two of the nature article during the night. Dodge thinks he

article during the night. Dodge thinks he swallowed them.

Roundsman Peter Beery was in charge of Dodge that morning. He made for the District Attorney's office and had a conference with Mr. Jerome and his assistants. The seriousness of the case was at once recognized. Assistant District Attorney Rand was called into consultation. In substance, his argument was as follows:

"If Dodge can't talk, what good is he as a witness? If he can't tehew his food, his physical condition will become worse and he may die. Think of all the trouble we have had getting him into shape. Something must be done, and it must be done at once."

to measure Dodge for a fine set of teeth.
"We want the best," said Mr. Jerome.
"Don't make any mistake about that. Dodge
has got to have teeth that he can chew with

and that won't drop out."

When the dentist presented his bill it was certified to by Mr. Jerome and sent to

was certified to by Mr. Jerome and sent to Comptroller Grout.

"Forty dollars for teeth," soliloouized Mr. Grout, when he saw the bill. "Teeth, teeth—that's a new luxury for witnesses for the State. I'll have to look into that."

Mr. Grout has a number of inspectors in his office. One of them was sent to inspect Dodge's teeth.

"Not worth it," said the inspector. "You can get better teeth on the Bowery for half the price. The District Attorney is extravagant."

He so reported to Comptroller Grout, who notified Mr. Jerome that he could not pass the bill. The merits of the case will be argued later.

Meantime the dentist has his money, Dodge has the teeth and Mr. Jerome doesn't care forty cents.

and Inhaled Gas Herself-Husband

Called Home to Hear of Bereavement. Mrs. Mina Schlueter killed her sevenyear-old daughter Emma, and all but killed herself by gas poisoning, yesterday morning, at 99 Seventh street.

When the janitress of the house, accompanied by a policeman from the East Fifth street station climbed into the Schlueter flat from the fire escape, the woman and child were found with rubber tubes in their mouths and the jets from which the tubes led were turned on full. The child was dead on a cot and the mother lay unconscious on the floor a few feet away.

supposed to be morphine. Mrs. Schlueter it is believed gave the powder to the child to render her unconscious and then put the tube in her mouth to make sure of death. The Schlueter family had been in hard luck of late. The father, Rudolph, a wood turner, earned \$11 weekly and in addition to regular household expenses there had been sickness in the family. Elsa, two years older than Emma, was stricken with diphtheria a little over a week ago and died on Sunday. The blow was a severe one, for Elsa was a beautiful child. Mrs. Schlueter was particularly downhearted because she had for reasons of economy failed to call a doctor and the child had had no medical attention until the janitress got Dr. Bertha Turkley, who lives next door, to attend. Then, however, it was too late.

But Rudolph Schlueter, when he went to his work at 6 o'clock yesterday morning, had no idea that in a few hours he would be called home to find his other daughter dead and to learn that his wife was a prisoner in Bellevue Hospital. Last night he sat in his little flat by the body of his dead child. Occasionally he pushed back the curls on the white brow and kissed the dead child.
